

Vinícius Shiguemori Shirakawabe

São Paulo - SP • Brazilian • +55 11 97567-6977 • shiguemori@hotmail.com

EDUCATION

- MBA - Full Stack Development - Fiap
 - Creation of a startup
- Graduate Course - Management of Projects PMI - Senac
 - Development of a website for volunteer work
- Analysis and Development of Systems - FATEC Zona Sul
 - Development of 2 mobile apps and one social network for gamers

EXPERIENCE

Sr Software Engineer – BairesDev

(12/2022 - 06/2025)

- Developed new microservices, APIs to enhance system functionality and performance.
- Assisted team in task preparation and provided technical training to onboard new members.
- Contributed to the growth and efficiency of the company through proactive engagement.
- **Technologies:** Golang, Python, AWS, MySQL, PHP, GIT, Docker, Kubernetes, RabbitMQ, VueJS, GraphQL

Sr Software Engineer – DBC Company

(09/2021 - 12/2022)

- Conducted thorough code reviews, offering constructive feedback and guidance to new team members, resulting in performance enhancement and improvement.
- Led the development of architecture, database, new events, new APIs, microservices, and server configuration, optimizing system performance.
- Significantly increased test coverage from 20% to 70%, ensuring comprehensive and robust testing of software components.
- Demonstrated expertise in software development, mentoring, and process improvement to drive team success and achieve organizational goals.
- **Technologies:** Golang, AWS, MySQL, DynamoDB, PHP, GIT, Docker, Kubernetes

Software Engineer – RedVentures

(05/2021 – 09/2021)

- Responsible for system maintenance and creation, including database architecture and server configuration, implemented on the AWS platform, development of new Rest APIs.
- Successfully improved system performance by 50% through strategic optimizations and enhancements.
- **Technologies:** Golang, AWS, MySQL, C#, GIT, Docker, Kubernetes

Software Analyst – Bionexo

(09/2020 – 05/2021)

- Conducted system maintenance tasks and performed code optimization to significantly improve system performance.
- Collaborated with customers and Product Owners (PO) to gather requirements and documented them effectively.
- **Technologies:** Golang, AWS, Oracle, Java, PHP, GIT, Docker, Kubernetes

Tech Lead – Bluefit Academia

(02/2020 – 09/2020)

- Led the development of new systems, incorporating cost-saving measures and implementing new tools, frameworks, and methodologies to drive efficiency and innovation.
- Conducted regular database maintenance and optimized server configurations, resulting in improved performance and cost optimization.
- Took charge of task preparation, creating comprehensive roadmaps and timelines for the team, ensuring clear direction and efficient workflow.
- Actively supervised and mentored team members, providing guidance and support to ensure high-quality deliverables and professional growth.
- **Technologies:** Golang, Java, PHP, GIT, Docker, SQLServer

Software Engineer / Process Manager – Grupo Ideal Trends

(01/2018 – 01/2020)

- Successfully maintained and developed over 50 diverse systems, including e-commerce platforms, SaaS applications, ERP systems, CMS solutions, web portals, web crawlers, and reporting systems.
- Utilized expertise in database creation, implementing Elasticsearch architecture, and optimizing server configurations to ensure efficient and scalable solutions.
- Created comprehensive training scripts to onboard new co-workers, providing them with the necessary knowledge and skills for their roles.
- Demonstrated strong leadership by training and mentoring new team members, fostering their professional growth and ensuring high-quality output.
- Actively contributed to the company's growth by identifying and implementing new tools, frameworks, and methodologies, enhancing productivity and staying at the forefront of technology trends.
- **Technologies:** PHP, NodeJS, VueJS, MySQL, MongoDB, Python, Elasticsearch, GIT, Docker

Web Developer – HTI Tecnologia

(07/2017 – 01/2018)

- Developed and implemented new plugins, expanding the functionality and capabilities of the system.
- Updated the new system with code optimization techniques, resulting in improved performance and efficiency.
- Created performance reports to track and analyze system performance, identifying areas for further optimization and enhancement.
- Took a lead role in creating the new version of the main system, incorporating new features, enhancements, and addressing any existing limitations or issues.
- **Technologies:** PHP, Oracle

Trainee – Branco do Brasil

(05/2016 – 01/2017)

- Designed and developed macros and worksheets to streamline and optimize work processes, improving efficiency and productivity.
- Conducted system maintenance tasks to ensure smooth operation and functionality, including troubleshooting and resolving user issues.
- Provided comprehensive user support, assisting with inquiries, troubleshooting, and training to maximize user satisfaction and proficiency.
- **Technologies:** VBA

Developer – FGR

(01/2013 – 01/2014)

- Designed and developed a comprehensive system to manage classes, students, and teachers within the company.
- Implemented features for tracking class schedules, student enrollment, and teacher assignments.
- Created functionality to generate reports for accurate and timely payment of teachers, ensuring transparency and efficiency in the process.
- Collaborated with stakeholders to gather requirements and understand specific needs for class and teacher management.
- **Technologies:** .NET, MySQL

Web Developer – Pastel do Luiz

(01/2012 – 01/2013)

- Designed and developed the institutional website to showcase the company's products and services.
- Created visually appealing and informative web pages to effectively present the company's offerings and highlight its unique value proposition.
- Implemented contact forms and other interactive elements to facilitate communication between the company and website visitors.
- Incorporated relevant information about the company, such as its history, mission, team, and any other pertinent details to provide a comprehensive overview.
- **Technologies:** PHP, MySQL
